MadeHere Portland Opens its fourth location on the ADX Portland campus

BY GRAY EDITORS JULY 12, 2018

WHAT HAPPENS WHEN A DESIGN SHOP FEATURING ALL LOCALLY SOURCED GOODS NEIGHBORS WITH AN ACCLAIMED MAKERS' SPACE, LEARNING CENTER, AND CUSTOM FABRICATION SHOP? Find out tomorrow at the grand opening of MadeHere Home's new location on the ADX Portland campus. Tomorrow marks the opening of the fourth MadeHere establishment since its launch in 2014. While pursuing its mission to showcase Portland's creative community, MadeHere features work from local designers, artists, and makers such as Revolution Design House, The Good Mod, Harkavy Furniture, and Kagu Studio. The new location will focus on home décor and design with rooms built around themes such as living, dining, home office, and more. For co-founder and CEO John Conners, one of the most exciting facets of MadeHere's latest addition is its new neighbor, ADX. "I love our new location on the ADX campus in SE Portland. It's a chance to work alongside ADX and their makers, several of whom make their goods on the other side of the wall!" ADX, a commune for creative manufacturers, is a hub for designers to share space, thoughts, and tools in pursuit of artistic endeavors. The Portland and PNW community anticipates the materialization of this new collaborative relationship and welcomes a fourth installation to the MadeHere movement.

The showroom opens tomorrow at 11 am, and the opening party is at 5 pm. 1015 SE Stark St.
