Who knows how to portray the female form better than a renowned group of female artists?

For the next three weeks, SoMa's new Mirus Gallery will attempt to answer that question with its third exhibit, "The Looking Glass: Refraction Through The Female Gaze."

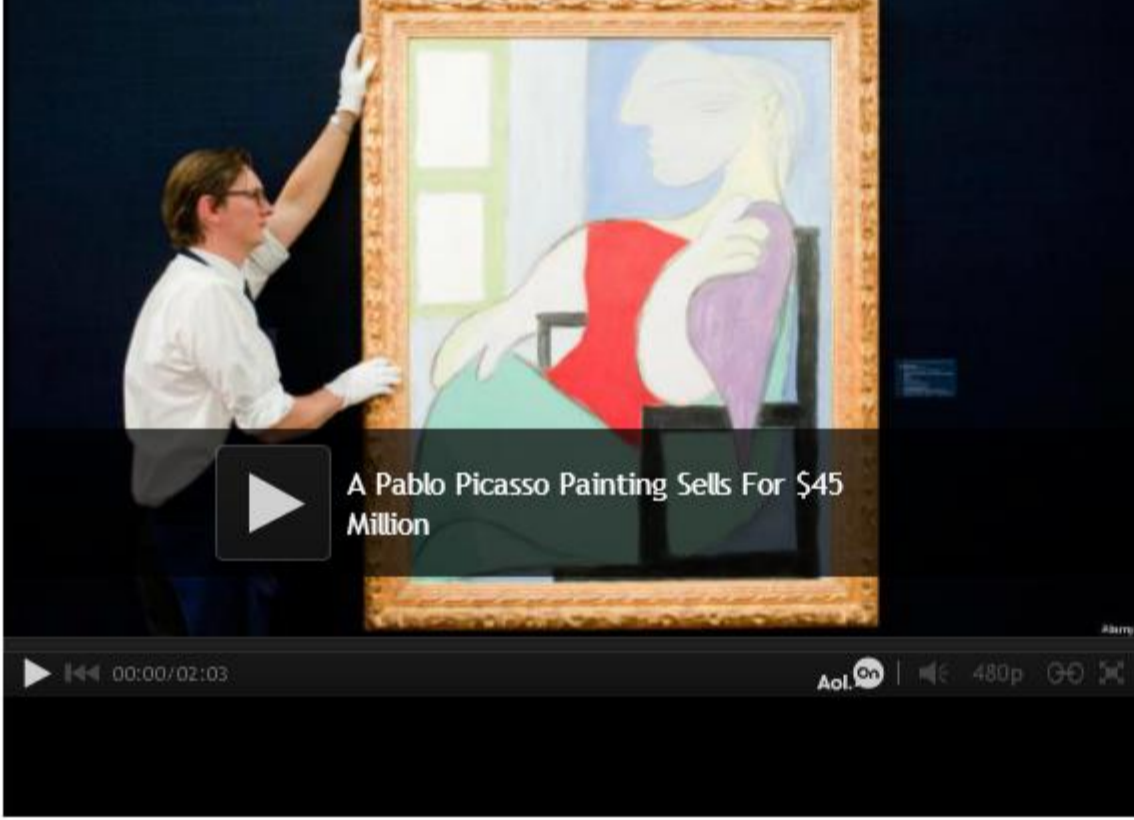

But don't expect a bundle of dainty flowers.

"The artists featured in the The Looking Glass challenge the preconceived notion that the female form in art represents a sense of delicacy and untouchable beauty,"

Take a look at some of the pieces featured below, and be sure to stop by Mirus Gallery before Saturday, March 2 to view the stunning collection in person.
